Important Information:

- Build Records will only be provided to the registered owners of the vehicle. Copies of the registration, title, or bill of sale must be included with your order. The owners name and serial number/VIN must be on the document. There are no exceptions.
- A serial number must be provided. We cannot research vehicles by body or engine numbers.
- The build card should not be confused with the build sheet, which is sometimes found in a vehicle. Not all codes for the vehicle will be included on build cards.
- Due to the age and quality of the original scan of the microfilm, we can not guarantee the quality of the build card copy. Every effort will be made to provide you with the highest quality possible.
- To the best of our knowledge, build records do not exist after 1967 for Chrysler built cars. Build records do not exist for Jeep, AMC or Canadian built vehicles within the company
